EXPERIENCE

Software Engineer

Feb 2025 – March 2026

Gotogether LLC

Warsaw, Poland

- Developed and shipped full-stack features for a ride-sharing platform (5,000+ daily trips, 3,000 active users).
- Implemented trip lifecycle, matching, and booking workflows, improving booking speed by 35% and reducing failed matches by 20%.
- Integrated Stripe API and Google Maps SDK to enable real-time tracking and payments, maintaining 99.9% system uptime.

Software Engineer

Sep 2024 – Jul 2025

Andersen Lab

Warsaw, Poland

- Built 15+ reusable React components, reducing frontend development time by 20% and improving UI consistency.
- Integrated frontend with NestJS REST APIs and managed state for responsive user interactions.
- Achieved 85% test coverage using Jest and React Testing Library, reducing production bugs by 15%.
- Implemented Redis-based caching and inter-service communication, reducing API latency by 40% across 10+ endpoints.

Frontend Web Engineer Intern

Jul 2023 – Oct 2023

Xperi Inc.

Warsaw, Poland

- Developed dynamic UI components using JavaScript and VueJS 3, improving modularity and interactivity.
- Integrated third-party APIs to enhance product functionality and increase user satisfaction by 20%.
- Optimized CSS animations and page load performance by 30%, and contributed to CI/CD setup using CodeShip.

PROJECTS

Apptrackr – Next.js, MongoDB, Gmail API, GPT-4 LLM

- Built a full-stack job tracking application that parses 100+ Gmail messages per user, achieving 95% accuracy in extracting application statuses.
- Developed an interactive UI displaying applications as cards with status updates, history, and manual correction capabilities.
- Implemented background processing pipeline (Gmail API + cron jobs) to automate data extraction and synchronization.

EDUCATION

Vizja University, Bachelor of Computer Science

2022-2026

Warsaw, Poland

Coursework: Java, JavaScript, RESTful Web Services, Software Engineering, Networking, Databases, Operating Systems, Algorithms & Data Structures.

42 Warsaw, Peer-to-Peer Programming Curriculum

2024 – 2025

Warsaw, Poland

Coursework: Algorithms, System Programming, C, Shell Scripting, Collaborative Coding, Problem Solving.

SKILLS

Languages

JavaScript, TypeScript, HTML, CSS, Java

Frontend

React, Next.js, React Query, VueJS 3, Bootstrap, Sass

Backend / DB

Node.js, NestJS, PostgreSQL, MySQL, MongoDB, Redis

Infrastructure

Docker, AWS, Linux

Testing & CI/CD

Jest, React Testing Library, CodeShip
